Currency Reform. Although there will be no extra session for the discussion of financial legislation, it is becoming daily more obvious that currency reform will occupy larger space in the regular Congressional legislative programme than had been anticipated before the Wall street flurry. It may be reasonably expected, too, that the President will give it more prominence in his annual message of this year than he did in his message of last December, in which he declared there must soon be merely calling attention to the credit currency scheme, and expressing his bepress Mr. Roosevelt, as it has the coun-
